

ASTM Bulletins—1947

Subject Index Papers, Reports, and Articles

A

Abrasion Testing

Hardness and Abrasion Resistance of Plastics—L. Boor, J. D. Ryan, M. E. Marks, and W. F. Bartoe. No. 145, March, p. 68.

Report on Correlation of Laboratory and Service Abrasion Tests of Rubber Tire Treads. No. 146, May, p. 77.

Textile Testing in Germany—H. F. Schiefer, L. Fourn, and R. T. Kropf. No. 144, January, p. 17.

Absorption Test

Relation of Absorption and Sulfate Test Results on Concrete Sands—Katharine Mather. No. 144, January, p. 26.

Accelerated Tests

Correlating Laboratory Accelerated Tests and Outdoor Tests by Means of Instrument Testing for Change in the Physical Properties of Paints—Dave M. Williams. No. 144, January, p. 49. Discussion, p. 56.

Acoustical

Acoustical Materials, No. 149, December, p. 18.

Adhesives

Correlating Laboratory Accelerated Tests and Outdoor Tests by Means of Instrument Testing for Change in the Physical Properties of Paints—Dave M. Williams. No. 144, January, p. 49. Discussion, p. 56.

Aggregate

Relation of Absorption and Sulfate Test Results on Concrete Sands—Katharine Mather. No. 144, January, p. 26.

Aging

The Effect of Air Circulation by Convection in the Test Tube Method of High-Temperature Aging of Synthetic Rubbers—A. E. Juve, H. Boxser, D. F. Reahard, Jr., S. R. Doner, J. F. McWhorter, C. G. Cashion, G. D. McCarthy, and R. M. Howlett. No. 147, August, p. 51.

Aircraft

Cutting Aircraft Engine Maintenance Cost—E. A. Droege Mueller. No. 148, October, p. 79.

Erosive Effects of Gun Blast on Materials—Development of a Strong Brittle Alloy—J. A. Broadston. No. 148, October, p. 39.

Air-Entraining Admixtures

Proposed Method of Evaluation of Air-Entraining Admixtures for Concrete. No. 148, October, p. 29.

Alloys, Non-Ferrous

Analysis of Metals; Correction in Brass Methods. No. 144, January, p. 76.

Erosive Effects of Gun Blast on Materials—Development of a Strong Brittle Alloy—J. A. Broadston. No. 148, October, p. 39.

Measurement of Thickness of Oxide Coatings on Aluminum Alloys—R. B. Mason and W. C. Cochran. No. 148, October, p. 47.

Research Work on Electrical Heating, Resistance and Related Alloys. No. 144, January, p. 73.

Aluminum

Measurement of Thickness of Oxide Coatings on Aluminum Alloys—R. B. Mason and W. C. Cochran. No. 148, October, p. 47.

A Rapid Method for Accurate Yield Strength Determination Without Stress-Strain Curves—L. J. Ebert, M. L. Fried, and A. R. Toole. No. 145, March, p. 50. Discussion, p. 52; No. 148, October, p. 94; No. 149, December, p. 99.

Antifreezes

New Committee on Engine Antifreezes Organized. No. 147, August, p. 28.

Asphalt

Ten Years' Exposure of Filled Asphalt Coatings on Saturated Felts—G. L. Oliensis. No. 144, January, p. 32. Discussion, p. 41; No. 147, August, p. 88.

Automotive Gaskets

Fungus-Proofing Automotive Cork Gaskets—Sigmund Berk. No. 145, March, p. 73.

Automotive Rubber

Vice-President Boyd and B. P. Resseger Discuss Gasoline and Automotive Rubber at Rochester Meeting. No. 146, May, p. 15.

Axial-Load Fatigue Testing

New Apparatus for Axial-Load Fatigue Testing—W. N. Findley. No. 147, August, p. 54.

B

Bearings

Discussion of Paper on Lubricants for Synchronous Unit Bearings. No. 146, May, p. 89.

Bond Strength

Properties of Masonry Mortars of Several Compositions—David Watstein and N. A. Seese, Jr. No. 147, August, p. 77.

Brass

Analysis of Metals; Correction in Brass Methods. No. 144, January, p. 76.

Building Funds

A. S. T. M. Building Fund. No. 144, January, p. 70; No. 145 March, p. 17; No. 148, October, p. 9; No. 149, December, p. 16.

Bureau Standards

National Bureau of Standards, Several New Divisions Announced; Numerous Reorganization Moves; Divisions and Chiefs Listed. No. 148, October, p. 34.

Burning Index

A Burning Index for Distillate Fuels—J. C. Reid and A. B. Hersberger. No. 145, March, p. 77.

Burst Test

Burst Test Apparatus for Rubber and Synthetics—A. Bryant. No. 148, October, p. 64.

C

Castings

Four New Tests for Adhesives, Radiographic Standard for Steel Castings, Approved. No. 145, March, p. 17.

Cement

An Explanation of the Titration Values Obtained in the Merriman Sugar-Solubility Test for Portland Cement—William Lerch. No. 145, March, p. 62. Discussion, No. 147, August, p. 89.

New Committee Organized on Magnesium Oxide Cement Materials. No. 147, August, p. 29.

Organization of Sectional Committee

ASA-A88 on Magnesium Oxide Cement Flooring. No. 147, August, p. 30.

Properties of Masonry Mortars of Several Compositions—David Watstein and N. A. Seese, Jr. No. 147, August, p. 77.

Ceramic Coatings

Ceramic Coatings for Steel in High-Temperature Service—W. N. Harrison, D. G. Moore, and J. C. Richmond. No. 145, March, p. 59.

Clay

Revisions in Marking Structural Clay Tile. No. 144, January, p. 76.

Cold-Drawn Bars

Estimated Properties of Common Compositions of Hot-Rolled and Cold-Drawn Carbon-Steel Bars. No. 148, October, p. 31.

Compression Testing

Properties of Masonry Mortars of Several Compositions—David Watstein and N. A. Seese, Jr. No. 147, August, p. 77.

Concrete

Proposed Method of Evaluation of Air-Entraining Admixtures for Concrete. No. 148, October, p. 29.

Relation of Absorption and Sulfate Test Results on Concrete Sands—Katharine Mather. No. 144, January, p. 26.

Conducting Paint Electrodes

Conducting Paint Electrodes for Dielectric Measurements—E. G. Meyer and M. A. Elliott. No. 147, August, p. 63.

Consistency

Determining Consistency on Small Samples of Lubricating Grease—R. F. McKibben. No. 146, May, p. 74.

Consumer Goods

People, Things, and Words—A. G. Ashcroft. No. 145, March, p. 54.

What the Consumer Wants in Standardization. No. 144, January, p. 14.

Cork

Fungus-Proofing Automotive Cork Gaskets—Sigmund Berk. No. 145, March, p. 73.

Corrosion

British Corrosion Committee Reports. No. 148, October, p. 87.

D

Dielectric Strength

Refresher on Statistical Analysis Applied to Two A.S.T.M. Oil Dielectric Strength Test Procedures—E. W. Greenfield (Symposium on Insulating Oil). No. 149, December, p. 89.

Dielectric Testing

Conducting Paint Electrodes for Dielectric Measurements—E. G. Meyer and M. A. Elliott. No. 147, August, p. 63.

Distillate Fuels

A Burning Index for Distillate Fuels—J. C. Reid and A. B. Hersberger. No. 145, March, p. 77.

District Activities

District Activities and Personnel. No. 147, August, p. 26.
Washington District Organized. No. 148, October, p. 16

E

Electrical Heating Alloy

Research Work on Electrical Heating,

Resistance and Related Alloys. No. 144, January, p. 73.

Electrical Insulation

Measurement and Control of Interlaminar Resistance of Laminated Magnetic Cores—R. F. Franklin. No. 144, January, p. 57.

Symposium on Insulating Oil:

First Series—No. 146, May

Steam-Emulsion Number as an Index of Transformer Oil Serviceability—M. D. Baker, p. 90.

The Interfacial Tension Test and Its Significance in Appraising Performance of an Insulating Oil—G. W. Gerell, p. 92.

Application of the Interfacial Tension Test in Grading Oil in Transformers Relative to Serviceability—E. F. Walsh, p. 95.

General Discussion, p. 99.

No. 149, December

Refresher on Statistical Analysis Applied to Two A.S.T.M. Oil Dielectric Strength Test Procedures—E. W. Greenfield, p. 89.

Second Series—No. 149, December

Introduction—L. B. Schofield, p. 58.

Advantages of an Inhibited Transformer Oil—T. E. Reamer and R. G. Larsen, p. 58. Discussion, p. 64.

Oxidation Inhibitors in Electrical Insulating Oils—L. J. Berberich, p. 65. Discussion, p. 73.

Power Factor of Insulating Oils—Significance of and Method of Testing Stability—J. C. Balsbaugh, p. 75. Discussion, p. 82.

Serviceability Tests on Transformer Oil from the Viewpoint of the Maintenance Engineer—F. J. Pohnan, p. 84. Discussion, p. 88.

Electron Microscope

Science Advancing—the Future of Testing—E. U. Condon. No. 146, May, p. 53.

Elongation

Correlating Laboratory Accelerated Tests and Outdoor Tests by Means of Instrument Testing for Change in the Physical Properties of Paints—Dave M. Williams. No. 144, January, p. 49. Discussion, p. 56.

Errusive Effects

Errusive Effects of Gun Blast on Materials—Development of a Strong Brittle Alloy—J. A. Broadston. No. 148, October, p. 39.

Exposure Testing

See Weathering

F

Fabric Testing

Textile Testing in Germany—H. F. Schiefer, L. Fourt, and R. T. Kropf. No. 144, January, p. 17.

Fatigue Testing

New Apparatus for Axial-Load Fatigue Testing—W. N. Findley. No. 147, August, p. 54.

Felt

Fire-Retardant Properties of Treated Felt. No. 144, January, p. 66.

Fiber Testing

Textile Testing in Germany—H. F. Schiefer, L. Fourt, and R. T. Kropf. No. 144, January, p. 17.

Films

Sensitometry of Radiographic Films Exposed to Two-Million-Volt X-Rays—E. A. Burrill and W. W. Buechner. No. 148, October, p. 52.

Finances

Financial Highlights, No. 145 March, p. 23.

Fire Tests

Fire-Retardant Properties of Treated Felt. No. 144, January, p. 66.

Flexure Testing

A Variable-Span Flexure Test Jig for Plastic Specimens—B. M. Axilrod, R. W. Thiebeau, and G. E. Brenner. No. 148, October, p. 96.

Flooring

Organization of Sectional Committee ASA-A88 on Magnesium Oxide Cement Flooring. No. 147, August, p. 30.

Fuels

A Burning Index for Distillate Fuels—J. C. Reid and A. B. Hersberger. No. 145, March, p. 77.

Cutting Aircraft Engine Maintenance Cost—E. A. Droege Mueller. No. 148, October, p. 79.

Fungus-Proofing

Fungus-Proofing Automotive Cork Gaskets—Sigmund Berk. No. 145, March, p. 73.

G

Gas Turbines

Overflow Meeting in Philadelphia on Gas Turbines. No. 145, March, p. 25.

Gaskets

Fungus-Proofing Automotive Cork Gaskets—Sigmund Berk. No. 145, March, p. 73.

Gasoline

Cutting Aircraft Engine Maintenance Cost—E. A. Droege Mueller. No. 148, October, p. 79.

Vice-President Boyd and B. P. Resseger Discuss Gasoline and Automotive Rubber at Rochester Meeting. No. 146, May, p. 15.

Gear Tester

A Gear and Lubricant Tester—Measures Tooth Strength or Surface Effects—E. A. Ryder. No. 148, October, p. 69.

Glass

Science Advancing—the Future of Testing—E. U. Condon. No. 146, May, p. 53.

Grease

Determining Consistency on Small Samples of Lubricating Grease—R. F. McKibben. No. 146, May, p. 74.

A Microworker for Lubricating Greases—G. M. Hain. No. 147, August, p. 86.

Penetration of Block Greases—L. C. Brunstrum and A. W. Weitkamp. No. 149, December, p. 48.

Report on Micro Penetration of Lubricating Grease. No. 147, August, p. 81.

Report on the Motor-Driven Grease Worker and Its Application for Evaluating Consistency Stability of Lubricating Greases. No. 149, December, p. 44.

Grease Analysis

Rapid Methods of Grease Analysis. No. 148, October, p. 73.

Guided Missiles

Science Advancing—the Future of Testing—E. U. Condon. No. 146, May, p. 53.

Gun Blast Effects

Erosive Effects of Gun Blast of Materials—Development of a Strong Brittle Alloy—J. A. Broadston. No. 148, October, p. 39.

H

Hardness Testing

Hardness and Abrasion Resistance of Plastics—L. Boor, J. D. Ryan, M. E.

Marks, and W. F. Bartoe. No. 145, March, p. 68.

Headquarters Dedication

Headquarters—Illustrated Description. No. 145, March, p. 12.

Society's Headquarters Building Dedicated. No. 145, March, p. 5.

High-Temperature Testing

Ceramic Coatings for Steel in High-Temperature Service—W. N. Harrison, D. G. Moore, and J. C. Richmond. No. 145, March, p. 59.

Highway Construction

Highway Construction Material Committees Meet in Washington. No. 144, January, p. 74.

Honorary Memberships

Three Honorary Memberships Awarded. No. 147, August, p. 15.

Hot-Rolled Bars

Estimated Properties of Common Compositions of Hot-Rolled and Cold-Drawn Carbon-Steel Bars. No. 148, October, p. 31.

I

Ignition Temperatures

Ignition Temperatures of Rigid plastics—E. M. Schoenborn and B. S. Weaver, Jr. No. 146, May, p. 80. Discussion, No. 148, October, p. 86.

Impact Testing

Investigation of the Resistance to Impact Loading of Plastics—H. Liander, C. Schaub, and A. Asplund. No. 148, October, p. 88.

Reproducibility of the Single-Blow Charpy Notched-Bar Test—N. A. Kahn and E. A. Imbombo. No. 146, May, p. 66. Discussion, No. 147, August, p. 88.

Instrument Testing

Correlating Laboratory Accelerated Tests and Outdoor Tests by Means of Instrument Testing for Change in the Physical Properties of Paints—Dave M. Williams. No. 144, January, p. 49. Discussion, p. 56.

Insulating Materials

Measurements and Control of Interlaminar Resistance of Laminated Magnetic Cores—R. F. Franklin, No. 144, January, p. 57.

Insulating Oil

Symposium on Insulating Oil:

First Series—No. 146, May

Steam-Emulsion Number as an Index of Transformer Oil Serviceability—M. D. Baker, p. 90.

The Interfacial Tension Test and Its Significance in Appraising Performance of an Insulating Oil—G. W. Gerell, p. 92.

Application of the Interfacial Tension Test in Grading Oil in Transformers Relative to Serviceability—E. F. Walsh, p. 95.

General Discussion, p. 99.

No. 149, December

Refresher on Statistical Analysis Applied to Two A.S.T.M. Oil Dielectric Strength Test Procedures—E. W. Greenfield, p. 89.

Second Series—No. 149, December

Introduction—L. B. Schofield, p. 58. Advantages of an Inhibited Transformer Oil—T. E. Reamer and R. G. Larsen, p. 58. Discussion, p. 64.

Oxidation Inhibitors in Electrical Insulating Oils—L. J. Berberich, p. 65. Discussion, p. 73.

Power Factor of Insulating Oils—Significance of and Method of Testing Stability—J. C. Balsbaugh, p. 75. Discussion, p. 82.

Serviceability Tests on Transformer Oil from the Viewpoint of the Maintenance Engineer—F. J. Pohnan, p. 84. Discussion, p. 88.

Interfacial Tension Test

Application of the Interfacial Tension Test in Grading Oil in Transformers Relative to Serviceability—E. F. Walsh (Symposium on Insulating) Oil. No. 146, May, p. 95.

The Interfacial Tension Test and Its Significance in Appraising Performance of an Insulating Oil—G. W. Gerell (Symposium on Insulating Oil). No. 146, May, p. 92.

L

Laminated Cores

Measurement and Control of Interlaminar Resistance of Laminated Magnetic Cores—R. F. Franklin, No. 144, January, p. 51.

Load-Elongation Recorder

A Rapid Method for Accurate Yield Strength Determination Without Stress-Strain Curves. L. J. Ebert, M. L. Fried, and A. R. Toole. No. 145, March, p. 50. Discussion, p. 52; No. 148, October, p. 94. No. 149, December, p. 99.

Lubricants

Determining Consistency on Small Samples of Lubricating Grease—R. F. McKibben. No. 146, May, p. 74.

Discussion of Paper on Lubricants for Synchronous Unit Bearings. No. 146, May, p. 89.

A Gear and Lubricant Tester—Measures Tooth Strength or Surface Effects—E. A. Ryder. No. 148, October, p. 69.

A Microworker for Lubricating Greases—G. M. Hain. No. 147, August, p. 86.

Rapid Methods of Grease Analysis. No. 148, October, p. 73.

Penetration of Block Greases—L. C. Brunstrum and A. W. Weitkamp. No. 149, December, p. 48.

Report on Micro Penetration of Lubricating Grease. No. 147, August, p. 81.

Report on the Motor-Driven Grease Worker and Its Application for Evaluating Consistency Stability of Lubricating Greases. No. 149, December, p. 44.

M

Magnesium Sulfate Test

Relation of Absorption and Sulfate Test Results on Concrete Sands—Katharine Mather. No. 144, January, p. 26.

Measurement, Accuracy of

Summary of Lecture on the Combination of Data from Tests Conducted at Different Laboratories, by P. C. Mahalanobis, F.R.S.—J. R. Tucker, Jr. No. 144, January, p. 64.

Meetings

A.S.T.M. Spring Meeting. No. 144, January, p. 5; No. 145, March, pp. 19. and 30.

Committee D-13 on Textile Materials Meets in New York City. No. 146, May, p. 20.

District Meetings on Petroleum Silicones, Textiles, and Highway Strength Steels—No. 148, October, p. 15.

Fiftieth Annual Meeting. No. 145, March, p. 21; No. 146, May, pp. 5. and 43; No. 147, August, p. 5.

Five Hundred Attend New York Meeting on Future of Atomic Energy. No. 144, January, p. 71.

Four Construction Material Committees Hold Spring Meeting in Cincinnati. No. 146, May, p. 20.

Highway Construction Material Committees Meet in Washington. No. 144, January, p. 74.

Joint Meeting with California Section, American Chemical Society. No. 146, May, p. 18.

Joint Meeting with the Los Angeles Rubber Group. No. 146, May, p. 18.

New York Meeting on Radar. No. 146, May, p. 19; No. 147, August, p. 27.

1948 National Meetings. No. 148, October, p. 11.

November-December District Meetings in Buffalo, Chicago, New York, Philadelphia. No. 148, October, p. 15.

Overflow Meeting in Philadelphia on Gas Turbines. No. 145, March, p. 25.

Pittsburgh District Sponsors Rubber Meeting. No. 144, January, p. 72.

President Carpenter Speaks at Chicago Meeting. No. 144, January, p. 72.

"Quality Control in the Distribution of Consumer Commodities" at New York Meeting. No. 145, March, p. 24.

Research Work on Electrical Heating, Resistance and Related Alloys. No. 144, January, p. 73.

Technical Committee Notes. No. 149 December, p. 25.

Vice-President Boyd and B. P. Resseger Discuss Gasoline and Automotive Rubber at Rochester Meeting. No. 146, May, p. 15.

Vice-President T. A. Boyd to Speak at Pittsburgh Meeting. No. 146, May, p. 19.

Merriman Sugar-Solubility Test

An Explanation of the Titration Values Obtained in the Merriman Sugar-Solubility Test for Portland Cement—William Lerch. No. 145, March, p. 62.

Discussion, No. 147, August, p. 89.

Metal Polish

Measurement of Metal Polish Performance—F. E. Clarke and Robert C. Adams. No. 147, August, p. 75.

Microworker

A Microworker for Lubricating Greases—G. M. Hain. No. 147, August, p. 86.

Mortars

Properties of Masonry Mortars of Several Compositions—David Watstein and N. A. Seese, Jr. No. 147, August, p. 77.

N

Notched-Bar

Reproducibility of the Single-Blow Charpy Notched-Bar Test—N. A. Kahn and E. A. Imbombo. No. 146, May, p. 66.

Discussion, No. 147, August, p. 88.

O

Oil

Symposium on Insulating Oil:

First Series—No. 146, May

Steam-Emulsion Number as an Index of Transformer Oil Serviceability—M. D. Baker, p. 90.

The Interfacial Tension Test and Its Significance in Appraising Performance of an Insulating Oil—G. W. Gerell, p. 92.

Application of the Interfacial Tension Test in Grading Oil in Transformers Relative to Serviceability—E. F. Walsh, p. 95.

General Discussion, p. 99.

No. 149, December

Refresher on Statistical Analysis Applied to Two A.S.T.M. Oil Dielectric Strength Test Procedures—E. W. Greenfield, p. 89.

Second Series—No. 149, December

Introduction—L. B. Schofield, p. 58.

Advantages of an Inhibited Transformer Oil—T. E. Reamer and R. G. Larsen, p. 58. Discussion, p. 64.

Oxidation Inhibitors in Electrical Insulating Oils—L. J. Berberich, p. 65. Discussion, p. 73.

Power Factor of Insulating Oils—Significance of and Method of Testing Stability—J. C. Balsbaugh, p. 75. Discussion, p. 82.

Serviceability Tests on Transformer Oil from the Viewpoint of the Maintenance Engineer—F. J. Pohnan, p. 84. Discussion, p. 88.

Ordinance Advisory Committee

Ordinance Advisory Committee, No. 149, December, p. 15.

Oxidation Inhibitors

Oxidation Inhibitors in Electrical Insulating Oils—L. G. Berberich, p. 63

Oxide Coatings

Measurement of Thickness of Oxide Coatings on Aluminum Alloys—R. B. Mason and W. C. Cochran. No. 148, October, p. 147.

Oxychloride Cement

New Committee Organized on Magnesium Oxychloride Cement Materials. No. 147, August, p. 29.

Organization of Sectional Committee ASA-A88 on Magnesium Oxychloride Cement Flooring. No. 147, August, p. 30.

P

Paint

A.S.T.M. Spring Meeting. No. 145, March, p. 19.

Correlating Laboratory Accelerated Tests and Outdoor Tests by Means of Instrument Testing for Change in the Physical Properties of Paints—Dave M. Williams. No. 144, January, p. 49.

Discussion, p. 56.

Introduction to Statistics—A. E. R. Westman. No. 148, October, p. 61.

Symposium on Paints and Paint Materials at Spring Meeting in Philadelphia. No. 144, January, p. 5.

Paint Electrodes

Conducting Paint Electrodes for Dielectric Measurements—E. G. Meyer and M. A. Elliott. No. 147, August, p. 63.

Paper

Proposed Method of Test for the Siliceous Grit Content of Paper and Paper Products. No. 144, January, p. 48.

Papers—Distribution

Advance Printing of Technical Papers. No. 148, October, p. 10.

Penetrations

Penetration of Block Greases—L. C. Brunstrum and W. W. Weitkamp. No. 149, December, p. 48.

Report on Micro Penetration of Lubricating Grease. No. 147, August, p. 81.

Petroleum Products

See Lubricants, Fuels.

Plastics

Hardness and Abrasion Resistance of Plastics—L. Boor, J. D. Ryan, M. E. Marks, and W. F. Bartoe. No. 145, March, p. 68.

Ignition Temperatures of Rigid Plastics—E. M. Schoenborn and D. S. Weaver, Jr. No. 146, May, p. 80. Discussion, No. 148, October, p. 86.

Investigation of the Resistance to Impact Loading of Plastics—H. Liander, C. Schaub, and A. Asplund. No. 148, October, p. 88.

Universal Plastics Testing Machine—G. S. Burr, W. J. Gailus, J. O. Silvey,

S. Yurenka, and G. H. Dietz. No. 149, December, p. 51. Discussion, p. 56.
A Variable-Span Flexure Test Jig for Plastic Specimens—B. M. Axilrod, R. W. Thiebeau, and G. E. Brenner. No. 148, October, p. 96.

Polish

Measurement of Metal Polish Performance—F. E. Clarke and Robert C. Adams. No. 147, August, p. 57.

Power Factor

Power Factor of Insulating Oils, Its Significance and Methods of Testing Stability—J. C. Balsbaugh. No. 149, December, p. 75. Discussion, p. 82.

Presentation of Data

Transitional Evaluations and Treatment of Experimental Data Subject to Very Wide Scatter—Wendel P. Roop. No. 147, August, p. 73.

President's Address and Talks

Our Stake in Materials Progress—Arthur W. Carpenter. No. 147, August, p. 47.

A Pertinent Message to All of Us From the President—Arthur W. Carpenter. No. 144, January, p. 69.

Progress in Chemical Industry Through Research and Standardization—Arthur W. Carpenter. No. 146, May, p. 58.

Progress in Rubber—Arthur W. Carpenter. No. 144, January, p. 9.

Printed Electric Circuits

Science Advancing—the Future of Testing—E. U. Condon. No. 146, May, p. 53.

Proximity Fuse

Science Advancing—the Future of Testing—E. U. Condon. No. 146, May, p. 53.

Q

Quality Control

People, Things, and Words—A. G. Ashcroft. No. 145, March, p. 54.

R

Radiography

Discussion of the Practical Application of the Van de Graaff Electrostatic X-Ray Generator—D. T. O'Connor. No. 148, October, p. 57.

Science Advancing—the Future of Testing—E. U. Condon. No. 146, May, p. 53.

Sensitometry of Radiographic Films Exposed to Two-Million-Volt X-Rays—E. A. Burrill and W. W. Buechner. No. 148, October, p. 52.

Research

Our Stake in Materials Progress—A. W. Carpenter. No. 147, August, p. 47.

Progress in Chemical Industry Through Research and Standardization—Arthur W. Carpenter. No. 146, May, p. 58.

Review of A.S.T.M. Research Activities. No. 146, May, p. 30.

Roofing Materials

Ten Years' Outdoor Exposure of Filled Asphalt Coatings on Saturated Felts—G. L. Oliensis. No. 144, January, p. 32. Discussion, p. 41; No. 147, August, p. 88.

Rubber

Burst Test Apparatus for Rubber and Synthetics—A. Bryant. No. 148, October, p. 64.

The Effect of Air Circulation by Convection in the Test Tube Method of High-Temperature Aging of Synthetic Rubbers—A. E. Juve, H. Boxser, D. F. Reahard, Jr., S. R. Doner, J. F. McWhorter, C. G. Cashion, G. D. McCarthy, and R. M. Howlett. No. 147, August, p. 51.

Oils for Rubber Tests. No. 144, January, p. 77.

Progress in Chemical Industry Through Research and Standardization—Arthur W. Carpenter. No. 146, May, p. 58.

Progress in Rubber—Arthur W. Carpenter. No. 144, January, p. 9.

Report on Correlation of Laboratory and Service Abrasion Tests of Rubber Tire Treads. No. 146, May, p. 77.

Vice-President Boyd and B. P. Resseger Discuss Gasoline and Automotive Rubber at Rochester Meeting. No. 146, May, p. 15.

S

Sandwich Constructions

Committee to Be Formed on Structural Sandwich Constructions. No. 147, August, p. 29.

Saturated Felts

Ten Years' Outdoor Exposure of Filled Asphalt Coatings on Saturated Felts—G. L. Oliensis. No. 144, January, p. 32. Discussion, p. 41; No. 147, August, p. 88.

Serviceability Tests

Serviceability Tests on Transformer Oil from the Viewpoint of the Maintenance Engineer—F. J. Pohnan. No. 149, December, p. 84. Discussion, p. 88.

Shipping Containers

Shipping Container Standards Reviewed. No. 146, May, p. 19.

Shrinkage

Textile Testing in Germany—H. F. Schiefer, L. Fourt, and R. T. Kropf. No. 144, January, p. 17.

Siliceous Grit

Proposed Method of Test for the Siliceous Grit Content of Paper and Paper Products. No. 144, January, p. 48.

Sodium Sulfate Test

Relation of Absorption and Sulfate Test Results on Concrete Sands—Katharine Mather. No. 144, January, p. 26.

Soils

Discussion of Paper on "A New Method for the Mechanical Analysis of Soils." No. 144, January, p. 61.

Specific Gravity

Influence of Nonhomogeneity of Wood on Its Strength Properties—E. George Stern. No. 147, August, p. 65.

Specifications

Analysis of Metals; Correction in Brass Methods. No. 144, January, p. 76.

Fire-Retardant Properties of Treated Felt. No. 144, January, p. 66.

Proposed Method of Test for the Siliceous Grit Content of Paper and Paper Products. No. 144, January, p. 48.

Revisions in Marking Structural Clay Tile. No. 144, January, p. 76.

Significance of Numerical Limits in Specifications. No. 146, May, p. 13.

Spinning Testing

Textile Testing in Germany—H. F. Schiefer, L. Fourt, and R. T. Kropf. No. 144, January, p. 17.

Standards and Standardization

Aviation Gasoline Specifications Being Prepared. No. 145, March, p. 28.

Four New Tests for Adhesives, Radiographic Standard for Steel Castings, Approved. No. 145, March, p. 17.

Further Standardization Projects. No. 148, October, p. 17.

List with Serial Designations of New and Revised Tentatives. No. 147, August, p. 17.

Much Activity in Standardization and Research Shown at the 250 Sessions Held During A.S.T.M. Committee Week. No. 145, March, p. 30.

New and Revised Specifications Approved by Standards Committee. No. 148, October, p. 5.

New Specifications and Tests Approved. No. 144, January, p. 7.

Numerous Actions on Standards. No. 149, December, p. 5.

Our Stake in Materials Progress—Arthur W. Carpenter. No. 147, August, p. 47.

People, Things, and Words—A. G. Ashcroft. No. 145, March, p. 54.

Progress in Chemical Industry Through Research and Standardization—Arthur W. Carpenter. No. 146, May, p. 58.

Proposed Method of Evaluation of Air-Training Admixtures for Concrete. No. 148, October, p. 29.

Shipping Container Standards Reviewed. No. 146, May, p. 19.

Some Current Standardization Projects in Technical Committees. No. 147, August, p. 31.

Standard Testing Atmosphere Proposed for Federal Specifications. No. 147, August, p. 40.

What the Consumer Wants in Standardization. No. 144, January, p. 14.

Statistical Analysis

Introduction to Statistics—A. E. R. Westman. No. 148, October, p. 61.

Refresher on Statistical Analysis Applied to Two A.S.T.M. Oil Dielectric Strength Test Procedures—E. W. Greenfield (Symposium on Insulating Oil). No. 149, December, p. 89.

Summary of Lecture on the Combination of Data from Tests Conducted at Different Laboratories, by P. C. Mahalanobis, F.R.S.—J. R. Tucker, Jr. No. 144, January, p. 64.

Transitional Evaluations and Treatment of Experimental Data Subject to Very Wide Scatter—Wendell P. Roop. No. 147, August, p. 73.

Steam-Emulsion Number

Steam-Emulsion Number as an Index of Transformer Oil Serviceability—M. D. Baker (Symposium on Insulating Oil). No. 146, May, p. 90.

Steel

Ceramic Coatings for Steel in High-Temperature Service—W. N. Harrison, D. G. Moore, and J. C. Richmond. No. 145, March, p. 59.

Estimated Properties of Common Compositions of Hot-Rolled and Cold Drawn Carbon-Steel Bars. No. 148, October, p. 31.

Four New Tests for Adhesives, Radiographic Standard for Steel Castings, Approved. No. 145, March, p. 17.

A Rapid Method for Accurate Yield Strength Determination Without Stress-Stain Curves—L. J. Ebert, M. L. Fried, and A. R. Toole. No. 145, March, p. 50. Discussion, p. 52; No. 148, October, p. 94; No. 149, December, p. 99.

Synthetic Rubbers

Burst Test Apparatus for Rubber and Synthetics—Austin Bryant. No. 148, October, p. 64.

The Effect of Air Circulation by Convection in the Test Tube Method of High-Temperature Aging of Synthetic Rubbers—A. E. Juve, H. Boxser, D. F. Reahard, Jr., S. R. Doner, J. F. McWhorter, C. G. Cashion, G. D. McCarthy, and R. M. Howlett. No. 147, August, p. 51.

Progress in Rubber—Arthur W. Carpenter. No. 144, January, p. 9.

T

Technical Series of Publications

A.S.T.M. Technical Series Developed. No. 146, May, p. 11.

Textiles

Fire-Retardant Properties of Treated Felt. No. 144 January, p. 66.

People, Things, and Words—A. G. Ashcroft. No. 145, March, p. 54.

Textile Testing in Germany—H. F. Schiefer, L. Fourt, and R. T. Kropf. No. 144, January, p. 17.

Thickness Measurement

Measurement of Thickness of Oxide Coating on Aluminum Alloys—R. B. Mason and W. C. Cochran. No. 148, October, p. 47.

Tile

Revisions in Marking Structural Clay Tile. No. 144, January, p. 76.

Timber

See Wood.

Tire Treads

Report on Correlation of Laboratory and Service Abrasion Tests of Rubber Tire Treads. No. 146, May, p. 77.

Titration

An Explanation of the Titration Values Obtained in the Merriman Sugar-Solubility Test for Portland Cement—William Lerch. No. 145, March, p. 62. Discussion, No. 147, August, p. 89.

Tour Award

Sam Tour Award Established. No. 147, August, p. 23.

Transformer Oil

Symposium on Insulating Oil:

First Series—No. 146, May

Steam-Emulsion Number as an Index of Transformer Oil Serviceability—M. D. Baker, p. 90.

The Interfacial Tension Test and Its Significance in Appraising Perform-

ance of an Insulating Oil—G. W. Gerell, p. 92.

Application of the Interfacial Tension Test in Grading Oil in Transformers Relative to Serviceability—E. F. Walsh, p. 95.

General Discussion, p. 99.

No. 149, December

Refresher on Statistical Analysis Applied to Two A.S.T.M. Oil Dielectric Strength Test Procedures—E. W. Greenfield, p. 89.

Second Series—No. 149, December

Introduction—L. B. Schofield, p. 58.

Advantages of an Inhibited Transformer Oil—T. E. Reamer and R. G. Larsen, p. 58. Discussion, p. 64.

Oxidation Inhibitors in Electrical Insulating Oils—L. J. Berberich, p. 65. Discussion, p. 73.

Power Factor of Insulating Oils—Significance of and Methods of Testing Stability—J. C. Balsbaugh, p. 75. Discussion, p. 82.

Serviceability Tests on Transformer Oil from the Viewpoint of the Maintenance Engineer—F. J. Pohnan, p. 84. Discussion, p. 88.

V

Viscosity

Determining Consistency on Small Samples of Lubricating Grease—R. F. McKibben. No. 146, May, p. 74.

Information Regulator on Viscometry. No. 145, March, p. 28.

W

Water Determination

Method for the Determination of Water in Tetrachloroethane, Hexachloroethane and Chlorinated Paraffin—L. Wilson Greene. No. 146, May, p. 87.

Weathering

Correlating Laboratory Accelerated Tests and Outdoor Tests by Means of Instrument Testing for Change in the Physical Properties of Paints—Dave M. Williams. No. 144, January, p. 49. Discussion, p. 56.

Ten Years' Outdoor Exposure of Filled Asphalt Coatings on Saturated Felts—G. L. Oliensis. No. 144, January, p. 32. Discussion, p. 41; No. 147, August, p. 88.

Wood

Influence of Nonhomogeneity of Wood on Its Strength Properties—E. George Stern. No. 147, August, p. 65.

X

X-ray

See Radiography.

Y

Yarn Testing

Textile Testing in Germany—H. F. Schiefer, L. Fourt, and R. T. Kropf. No. 144, January, p. 17.

Yield Strength

A Rapid Method for Accurate Yield Strength Determination Without Stress-Strain Curves. L. J. Ebert, M. L. Fried, and A. R. Toole, No. 145, March, p. 50. Discussion, p. 52; No. 148, October, p. 94; No. 149, December, p. 99.
